Update from the IRTS Contest Manager

IRTS Contest Manager, Mark EI6JK reports that the recent 80 metre IRTS counties contest and Easter Monday 70 cm and two-meter IRTS counties contest results are now published on the IRTS website under contest results. The 80m contest had 32 entries altogether and just under half from outside EI/GI. Mark notes that it was great to see entries from continental Europe and conditions were quite good for this contest. On the other hand, the VHF/UHF contest numbers were down, mainly due to poor propagation particularly on the two-meter band. Mark EI6JK thanks everyone for the participation and if anyone would like any information on contests or logging programs, do not hesitate to contact him. South Dublin Radio Club's AGM will take place at 8 p.m. on Tuesday 21st of May 2024 at Ballyroan community centre on the Marian Road in Rathfarnham. All members are asked to attend.

Thanks from Shannon Basin Radio Club

Shannon Basin Radio wish a hearty thanks to everyone that travelled to Ballinasloe last week for the IRTS AGM Weekend that they hosted. In particular, the club thanks the presenters for the talks on the Saturday afternoon and everyone who took part in the club's rally and monster raffle on Sunday to help make it such a great success and a very enjoyable social event also. SBRC was delighted to see the very high turnout from right across the amateur radio, CB, and general electronics and radio interest areas which surpassed last years' attendance.

Shannon Basin Radio Club thank the almost twenty-five traders and clubs that participated and the many SBRC volunteers involved in all the organisation and ensuring plenty of hands were available to help with loading in and out on the day. In addition, the Shearwater Hotel made every effort to help ensure the event went smoothly which was greatly appreciated.

Over the weekend, SBRC handed out 34 prizes over two raffles totalling approximately €3500 and are deeply appreciative of their many generous sponsors. Finally, Shannon Basin Radio Club wish South Eastern Amateur Radio Group the very best as host club for next year's AGM Weekend.

Propagation Update

For the first half of this week, VHF and UHF enthusiasts can expect some marginal to fair tropospheric ducting opportunities. On the HF bands, the sunspot number has reached its highest value in thirteen years. Operators can therefore continue to enjoy some good propagation conditions but interspersed with relatively frequent radio blackouts due to geomagnetic storms caused by our active sun.
